**Micah Jeter**

For the last 8 years Micah Jeter has been creating still shot videos using her American Doll collection. She has a Youtube channel, mixypixy7. She takes still shots of her dolls, moves them, takes another shot and then puts them together to make a video. She does the voice over work and then post to Youtube. Here videos got so popular she started getting paid from Youtube. Last month she got \$1,000.00 and her goal is to make over \$18,000.00 this year. She says it take days to make a video and can take up to 35,000 pictures for just one video. She is very talented and loves what she does. Very cool presentation in my opinion.
