#### THIS WEEK'S PROGRAM:

Lion Mike Hamby introduced Dr. Michael Middleton and his amazing accordion (a program arranged by Lion Sam Farrow before he disappeared). Dr. Middleton is Director of Nuclear Medicine & Associate Professor of Radiology, S&W Hospital/Texas A&M Health Science Center. His incredible professional, as well as musical credentials, can be viewed at the end of this brief summary of his program. Mike, with his Titano Starlight Royal Cossoto Accordion with synthesizer, brought us a program of music which was truly fantastic. His renditions of Lady of Spain, Beer Barrel Polka, Amazing Grace, etc, left us clapping and waiting for more. Along with the music, Mike gave some little known history of the accordion and accordion music. Did you know the accordion was invented in China? Mike is also an accomplished tuba player. At times, his wife Darla and their three children (Meredith, Lance and Mitch) perform as a group. They play the harp, drums, and bass respectively and are affectionately called Mike and the Middletones!!! By the end of the program, it was obvious that Mike is a world class musician and that his accordion IS NOT your grandpa's old "squeeze box". Thanks Mike and Lions Farrow and Hamby. If you want to learn more about Mike's accomplishments, go to [www.accordions.com/mikemiddleton/](http://www.accordions.com/mikemiddleton/)
