Meeting of the Heavy Weights !!!!!

In the red corner
weighing in at four pounds five ounces, we had the Cowboy Roy Pork Chop, presented by Big Hoss BBQ

In the blue corner
weighing in at over a Billion we had Drayton McLane, Jr. (Yes, that is with a "B")

Today at lunch, several told Drayton that when we have a weak program we have a good meal. He was glad to come back & see that nothing has changed.

He said of the club: The spirit here is what makes this club work. We are very important to the community; we really have an impact. Life is to be meaningful, enjoyable & to accomplish things but also to have fun. We do not take ourselves too seriously and we help the community to not take it's self too seriously. For which he commended the club.

Mr. McLane went on to say, Who likes change? the most difficult thing in life is change. We are very, very predictable people. 80% of what (groceries) you buy each week you bought the week before. We get in ruts & we make roads.

Drayton's principal focus was that, we have lost the art of being a daring risk taker. Have we gotten too cautious in our lives? We over analyze. There is too much information, too much technology & too much knowledge in the world.

In 1962, what big was said that changed the world? We need un-daunting courage within our city & ourselves. Drayton said we only have to do two things:

We have to have ethics, integrity, and honesty in everything we do. Also, we cannot violate any laws. If we are alive after the explosion, then we are in great shape.

What can we do to make life better, what are some new ideas some different things to do?

Thank you Michelle, for bringing Drayton back to visit the club.
