### TODAY'S PROGRAM:

Shannon Gowan Ronald McDonald House

September 22,2021

The Temple House was built specifically to be a Ronald McDonald House in 1986. The founders and Board of Directors are comprised of civic leaders, physicians, bankers, accountants, media representatives, and NFL representatives, each of whom donates his or her time, talents, and resources to help the House. When the house was completed in 1986 there were seven rooms available for guests, a kitchen, a small laundry room, and shared bathrooms. In 2002, thanks to large donors such as the Frank & Sue Mayborn Foundation, the Meadows Foundation, the E. Rhodes & Leona B. Carpenter Foundation, the Jeld-Wen Foundation, Wilsonart International, and Mr. & Mrs. Hal Leverson the House to expanded from seven bedrooms to nineteen bedrooms. From a total of approximately 7,000 sq. ft to just over 22,000 sq ft. The added space also included adding private baths to those original seven rooms, a second large kitchen and larger laundry room, a community conference room, and multiple storage rooms.

The mission on the Ronald McDonald House of Temple, Texas is to provide a home away from home for families of seriously ill or injured children who must travel to Temple for medical treatment. In addition to providing affordable lodging, the House offers a convenient, comfortable environment in which family members can renew their physical and emotional strength. The comfort of our guests is our first and foremost priority. All personal actions and organizational initiatives are undertaken with the utmost integrity. We are sensitive to the concerns of all our guests, staff, volunteers, donors, and other care-giving partners. We appropriately acknowledge the contributions of all volunteers, donors, and staff. Families are encouraged to have a sense of normalcy in their lives: cook the meals they want, wash their clothes, and be together as a family to receive support from one another and with other families in similar situations.
