Stroke Program Manager

We received a very insightful and informative programs today about the strokes. The rock band was formed in NYC in 1998 but is still touring to this day.

However, most of the time

was spent discussing the Ischemic and Hemorrhagic iterations of the group which rock much, much less. Regardless, the importance of quickly identifying the strokes and getting them to the hospital cannot be understated. **BE FAST—** Balance, Eyesight, Face Drooping, Arm Weakness, Speech, and Time to call 911.

Welcome to the club
