Today Dr. Battershell & Dr. Ott attended to discuss the environments of the Temple School District and its future growth & direction. Dr. Battershell is retiring this year, having been the superintendent from 2008 to 2018 & Dr. Ott has been voted in as our new superintendent.

**During their visit, the club made a \$100 donation to Project Graduation & a \$350 donation to Wildcat Mentors.**

A key topic of discussion was student safety. As a part of that discussion, Robin reviewed TBRI. The Texas Health and Safety Code was amended by the past legislating session schools to develop procedures regarding student mental health, including grief and trauma related emotions, and forming positive relationships, and decision making.” The district has carefully identified students who are the most behaviorally deregulated to receive intensive trauma informed behavioral intervention, or TBRI. Temple ISD, as the pioneer of the program, is a Best Practice district in the state & nation for its focused adaptation & implementation of TBRI. Very simply, the district is attempting to correct where development stopped with each targeted student. While test scores are important, they are not the only thing. The district is committed to serving children and seeing all students graduate.
