Do you recognize this forehead?

What Happened at the Meeting

Sherri Street , Downtown Development Coordinator for the City of Temple (shown above with Lion Boss Randy), spoke today about Temple's downtown redevelopment.

The position was adopted in the 2015-2016 budget. The full-time staff member works to revitalize and redevelop the city's downtown area as well as assist with retail development, infrastructure improvements and event coordination.

"I am looking forward to working in Downtown Temple amidst such beautiful historical buildings, exciting cultural activities, and warm, inviting people," Street said in a news release. "I think there is an enormous opportunity to help transform the downtown area into a popular destination for residents and visitors alike and I can't wait to get started."

Street spent the past nine years working as the executive director for Keep Waco Beautiful, where she provided leadership and administrative guidance for the organization, recruited thousands of volunteers annually and increased grant funding, the release said.

## Did you know?

Did you know that Veterans Day was once known as Armistice Day? The term comes from an armistice between Germany and the Allied Nations on November 11, 1918. The first Armistice Day was acknowledged on Nov. 11, 1919. On June 1, 1954, Armistice Day was changed to Veterans Day.

Veterans, we thank you for your service. Your Lions Club recognizes that our liberties were not easily won and your service made the difference.
